A.R.S. §15-211 requires schools to submit a plan to ADE by October 1 for improving the reading proficiency of its pupils in kindergarten programs and grades 1-3. The plan must include a budget for spending monies from both the K-3 and K-3 Reading support level weights. Schools must use monies generated by the K-3 Reading weight only on instructional purposes intended to improve reading proficiency for pupils in kindergarten through 3rd grade with particular emphasis on pupils in kindergarten through 2nd grade. The K-3 Reading weight will only be included in the School's BSA 55-1 after the School's K-3 Reading Program Plan is approved by the State Board of Education. Page	Reference	Instruction
Cover	General	These instructions will help charter schools prepare the budget. Within the forms, blue font and light blue highlights indicate that an instruction is linked to that specific line. We have provided an instructions button that links to any general instructions or to the first instruction for a page. The forms have been set to print without "objects" so that the instructions buttons do not print.
		The cells in the prior year columns on the budget forms contain formulas that will bring forward budget amounts from the FY 2023 budget forms. However, the cells have not been protected so users may also enter the information manually. To bring forward amounts automatically, the most recently revised FY 2023 budget must be saved as budget23.xls in the C:\CSFORMS folder. If the file is not named budget23.xls, the formulas will not function properly. Excel will ask the user to update information when the budget24.xlsx file is opened. Users should review amounts reported in the prior year column to ensure they agree to the school's most recently revised FY 2023 budget.
		Schools should complete the Data Entry page before completing pages 1 through 4. To ensure that the Arizona Department of Education (ADE) can properly access the school's data, do not change formulas without specific instructions from either the Arizona Auditor General's Office, Accountability Services Division, or ADE, School Finance.
Cover	CTDS number	This cell will only accept entries of 9 digits. Do not include any slashes, dashes, etc. Enter the school's CTD number plus 3 zeros.
Cover	Version	The version of the budget being submitted on the cover page is formatted with a drop-down menu. Select the appropriate choice from the menu: Proposed, Adopted, or Revised (including the revision number). Enter only menu choices in the cell.
		All information on the cover page must be completed/updated when the proposed, adopted, or revised budget is printed out for the Governing Board to sign. All information, excluding the revenue information, must also be updated when the budget is revised.
Cover	Estimated revenues	Base estimated revenues by source for FY 2024 on the best information available at the time the budget is prepared. Estimated revenues may be more or less than estimated expenses.

Cover	Average teacher salary	In accordance with A.R.S. §15-189.05, a school's budget shall include the prominent display of the average salary of all teachers the school employed for the budget and prior years, and the increase in the average salary of all teachers the school employed for the budget year reported in dollars and percentage. Schools must also prominently post this information on their home page separately from its budget. The statute does not provide a definition of a teacher. Each charter should be consistent in the type of salary information included in this table from year to year. An optional comment box is available to provide any additional detail regarding the average teacher salary calculation. Schools should revise the average teacher salary information anytime it submits a revised budget to ADE.

1	Federal and State projects, line 37	Include the total of federal and State project expenses (project codes 1100 through 1499 from page 2) on line 37. Schools should not include federal and State project expenses with other Schoolwide Project expenses on lines 1 through 36.

1	Employee benefits	Schools participating in the Arizona State Retirement System should budget at the rate of 12.29 percent for covered positions. For positions subject to the Alternate Contribution Rate, schools should budget at the rate of 9.99 percent.
2	Federal and State projects	Separate accountability is required for each federal and State project. Therefore, charter schools should estimate the expenses for each federal or State project in which the school participates. The totals on line 32 should agree with the total columns for federal and State projects on line 37 of page 1. A.R.S. §15-1261 requires charter schools to establish an E-rate Project to account for any E-rate funding the school receives. Include monies budgeted for the E-rate Project and COVID-19 federal relief projects within Other Federal Projects on line 17.
2	College Credit Exam Incentives	Schools that receive monies from the college credit by examination incentive program per A.R.S. §15-249.06 should deposit them in Project 1456—College Credit Exam Incentives. Schools must distribute at least 50 percent of the bonus monies received from this program to the classroom teacher for each student who passes a qualifying exam and to other teachers of relevant subjects who instructed that student, including but not limited to teachers in the same department or subject matter that contributed to the student passing the exam, as identified by the governing body or the school principal. The remainder of any bonus monies received from this program must be allocated by the school principal on behalf of students who receive a passing score and may be used for teacher professional development or student instructional support, reimbursement of exam fees, or instructional materials.
2	Arizona Industry Credentials Incentive	Schools that receive monies from the Arizona Industry Credentials Incentive Project per A.R.S. §15-249.15 should deposit them as a separate State project using project object code beginning with 14XX. Monies received must be used for instructional costs and professional development for a career technical education program teacher to become a certifying professional for an approved certificate, credential or license; to offset the students' cost of certification, credentialing or licensure; for developmental costs related to creating, expanding or improving an approved site of a certificate, credential or license career technical program or course; for instructional hardware, software or supplies required for the certification, credentialing or licensure; for career exploration in any school grade and awareness activities for parents, students and the community for the approved sectors.

2	Capital acquisitions	Enter the increase in the capital asset accounts (intangible assets, land and land improvements, site improvements, buildings and building improvements, equipment, and construction in progress) for assets to be acquired by purchase, lease purchase, or construction for all projects. If the school budgets for capital acquisitions related to the K-3 Reading Program, include the increase in the capital asset accounts for those acquisitions by asset type on lines 1 through 6. The total of all capital acquisitions for the K-3 Reading Program should be reported on line 8.
